Schreeuw om leven

SCHREEUW OM LEVEN *(CRY FOR LIFE)*

ABOUT US

Cry for Life is a national pro-life organization in The Netherlands. Cry for Life was founded in 1985 by Bert and Willy Dorenbos after seeing the film The Silent Scream, which contains the ultrasound video of an abortion. We are a Biblical Christian organization and work on a non-profit basis. Our approach has always been action and media oriented. Networking with the global pro-life movement is important to us.

Cry for Life organizes vigils at all or almost all abortion clinics in The Netherlands. In 1992 the first March for Life was organized in Amsterdam, which was continued annually in Amsterdam and later in The Hague. In 2015 about 2.000 people participated. In 2000 we started with our pregnancy help center work, which continues till today

MISSIONS

Our mission is the protection of human life from its earliest biological beginnings to natural death. We provide Biblical answers to the issues of life and teach the Biblical view on sexuality and marriage.

ACTIVITIES

Next to the march, the vigils and our help center, some of our activities are:

> newsletters to 25.000 supporters,

> special mailings to doctors, members of Parliament and pastors,

> publication of books,

> press releases,

> speaking engagements in schools, youth clubs and churches,

> booths at Christian and non-Christian events.

NEWS

We are concerned about the international policy of the Dutch government. Our government supports the spreading of sexual promiscuity and abortion. One example is the upcoming women's conference Women Deliver, 4th global conference in May in Kopenhagen (http://wd2016.org). Together with abortion providers Planned Parenthood and Mary Stopes, the government of The Netherlands is listed as the only national government in the advisory group. We want to cooperate with any person or organization that is willing to provide a pro-life voice at this conference.
