

## SOPHIA KUBY

*Director for EU Advocacy at ADF International Brussels*

Stakeholder at the table ronde (11h30 to 12h45)

American planned parenthood scandal: what are the consequences for Europe?

### CAREER PATH

Sophia Kuby serves as Director of EU Advocacy for ADF International in Brussels, Belgium. With a team of lawyers, she promotes religious freedom, sanctity of life, and marriage and family.

Besides her advocacy work, Kuby provides media training and public relations seminars to equip Christians to engage successfully in the public debate.

### A LEADER IN DEFENCE OF LIFE

Prior to joining ADF, Kuby was founder and executive director of European Dignity Watch, a non-governmental organization advancing fundamental human freedoms and healthy family policies in the European Institutions. Under her leadership, EDW became one of the most well-known pro-life and pro-family organizations in Europe.

She regularly spearheads successful campaigns, such as against the Estrela report, on EU funding of International Planned Parenthood and Marie Stopes International or, most recently, for recognition of the ongoing atrocities by ISIS against Christians and other minorities as genocide.

Kuby's passion for challenging the status quo when it is unhealthy, prompted her to study philosophy. She believes religious freedom and human dignity are the cornerstones of a free society.

Kuby established and currently leads Agenda Europe, the largest network of allied NGOs and experts in Europe that promote religious freedom, life, and the family.

She is vice president of Christian Democrats for Life in Germany, a board member of Scandinavia Human Rights Lawyers, and a founding member of the European Euthanasia Prevention Coalition.
